

Protecting, maintaining and improving the health of all Minnesotans

February 5, 2013

Mr. Bill Schwandt General Manager P.O. Box 779 Moorhead, Minnesota 56561-0779

Dear Mr. Schwandt:

Subject: Second Scoping Decision Notice, City of Moorhead, PWSID 1140008

This letter provides notice of the results of a scoping meeting held with you Kris Knutson (Manager), Li Zhang (Public Works Engineer), Cliff Mc Lain (Consultant) on January 8, 2013, at the City of Moorhead Public Works Office regarding wellhead protection (WHP) planning. During the meeting we discussed the data elements that must be included and used to prepare the part of the WHP plan related to the management of potential contaminants in the approved drinking water supply management area. The enclosed Scoping 2 Decision Notice lists the data elements that were discussed at the meeting.

The city of Moorhead has met the requirements to distribute copies of the first part of the wellhead protection plan to local units of government and hold an informational meeting for the public. The city of Moorhead will have until September 10, 2013 to complete its wellhead protection plan.

If a data element is marked on the enclosed notice as a data element that must be used and it does not exist, it is helpful if your plan notes this. Cliff Mc Lain will be working with you to develop a draft of the remainder of the wellhead protection plan. I will be contacting you to review the progress of the development of Part II of your plan. If you have any questions regarding the enclosed notice, contact me by email at George.minerich@state.mn.us or by phone at 320/223-7314.

Sincerely,

Hun E M

SCOPING 2 DECISION NOTICE

Free Semander of the Wellhead Protection Plan

Name of Public Water Supply:		Date:
City of Moorhead	(PWSID=1140008)	February 5, 2013
Name of the Wellhead Protection	n Manager:	
Mr. Bill Schwandt – Gene	eral Manager	
Address:	City:	Zip:
P.O. Box 779	Moorhead	56561-0779
Unique Well Numbers:		Phone:
241492 (Well 6), 437645 222050 (Well 9), 222051 511085 (Well 12)	(Well 6B), 222049 (Well 8), (Well 10), 511085 (Well 11),	218/299-5404

Instructions for Completing the Scoping 2 Form

N	R	S	N = Not required.
X			If this box is checked, this data element is NOT necessary for your wellhead protection plan because it is not needed or it has been included in the first scoping decision notice. Please go to the next data element .

N	R	S	R = Required for the remainder of the plan.
	X		In this dox is checked, this data WOST be used for the Temander of the plan.

Ň	R	S	S = Submit to MDH. If this box is checked, this data element MUST be included in your wellhead protection plan and submitted to MDH.
		X	If there is NO check mark in the "S" box but there is an Ax@ in the "R" box, this data element MUST be included in your plan, but should NOT be submitted to MDH. This box will only be checked if MDH does not have access to this data element. This will help to reduce the cost by reducing the amount of paper and time to reproduce the data element.

Note: Any data elements required in the first scoping decision notice must also be used to complete the remainder of the wellhead protection plan.

DRAFT SCOPING 2 DECISION NOTICE ADDEMDUM

During the January 8, 2013 Scoping Two meeting several items of interest were considered for inclusion in the plan. It is recommended (not mandatory) that the following issues be considered in the City of Moorhead's plan:

- 1. Work with MDH Hydrologist to develop and implement a chloride/bromide study in the Buffalo Aquifer DWSMA wells and surface waters.
- 2. Work with MDH staff to sample and develop further stable isotope information in the Buffalo Aquifer DWSMA wells and surface waters.
- 3. Work with MDH Hydrologist to develop and implement a groundwater/surface water temperature monitoring plan in the Buffalo Aquifer DWSMA wells and surface waters.
- 4. Review and incorporate recommendations from, Part One document -- John Oswald, Environmental Engineer II, LEGGETTE, BRASHEARS & GRAHAM, INC.
- 5. Consider additional spill control and clean-up information and measures for Buffalo Aquifer DWSMA's in part two plan
- 6. Continue to work with Clay County to develop regulations and monitor for gravel mining operation in DWSMA.
